Dear Hiring Manager,

I am writing to express my interest in an **Operations or Logistics role** within your organisation. I bring over four years of real, hands-on execution experience across fleet operations, end-to-end logistics, process improvement and business operations, ready to deliver results from day one.

At **RIVIGO**, India's pioneering relay trucking company, I managed fleet and transport operations for Amul FMCG. I redesigned dispatch scheduling from scratch and **reduced fleet idle time by 18%**. QC protocols I implemented **reduced shipment damage by 20%**.

At **I Fly Aviation**, I managed end-to-end operations for 300+ training sessions across three departments. I drove **25+ process improvements**, maintained **98% record accuracy** across 500+ files and increased stakeholder satisfaction by 20%, building every system from scratch.

I grew up managing my family's retail business in Nagpur, stock, suppliers, customers and daily operations since childhood. Operations is not just my career. It is how I think.

I then **self-funded over 25,000 EUR** to relocate to France completely alone and complete my Master's at **ESSCA School of Management**, triple accredited AACSB, AMBA and EQUIS. This was not just a degree. It was a statement, I commit fully and execute without excuses.

I am an **India × France profile**, genuinely rare in this market. I am actively seeking a **CDI in Operations, Logistics or Supply Chain**, in France or anywhere in the world. I would welcome the opportunity to discuss how I can contribute to your team.

Warm regards,

Sameer Sheikh
